- Is this activity relevant, practical and challenging enough?
- How can I solve this problem?
- Do I have the necessary and right tools for the job?
- Do I have to show what I have learnt to others?

- I build things because I am a hands-on person.
- I figure out real, challenging projects.
- I learn by living what I learn!
- I work alone as I am self-sufficient!

- I feel good when learning is linked with real-world experiences rather than with reading and writing.
- I feel frustrated when I do not have the adequate tools for the job.
- I hate it when someone meddles with my tools or the models I build.
- I feel great when my projects are put to good practice!
